PriceGuide for CameraLink Cables

CL-Base cameras require one (1) cable

CL-Full cameras require two (2) cables

SDR = 13 mm wide (our LapTop CL FrameGrabbers use SDR connectors)

MDR = 20 mm wide (our DeskTop CL FrameGrabbers use MDR connectors)

PoCL = Power over Camera Link

all of our CL cables are PoCL-friendly: if the camera requires power and

if the FrameGrabber supplies it, power is transmitted over the cable
